LATER FOREIGN.

THE TIMES' BODY-SUIT.
LONDON, May 13.—The Times has resumed the publication of its series of articles intended to show "the connection between Parnellism and crime." The present series of articles is entitled: "Behind the scenes in America." The matter is the result of inquiry, which the Times says it instituted last summer touching the intercourse between American Fenians and Parnellites, and purport to contain a number of secret records of the clan called the National Society, with notes of a schism in that society and battles among its leaders. Among the documents published what are alleged to be copies of the constitution of the society, lists of its officers at various epochs, letters from its past and present leaders, secret circulars and reports of the society's convention. The Times says its inquiries are not yet complete, for the reason that the society has been reorganized so that its system of working becomes seemingly a mystery. Editorially commenting on its present revelations, the Times says: "It is impossible to doubt that the policy of the Parnellites, and, therefore, of Gladstone, was untimely dictated by the hands of this society and by Patrick Ford."

MR. O'BRIEN'S SERGE.

TORONTO, May 13.—It is current here to-day that Editor O'Brien, notwithstanding Mayor Howlands telegram to him yesterday, will come here to speak at the public meeting to-morrow evening. President Mulligan of the local branch of the First National League received a dispatch from Mr. O'Brien but it is not decided whether Mr. O'Brien will come or not. If he should come there will be an immense crowd present as the citizens generally seem thoroughly in earnest in their opposition to his speaking here.

EL PASO NEWS.

Special Dispatch to the Examiner.
TEMPEL, May 13.—The firemen's ball last night at the opera house proved the event of the season. The enjoyment was so great that the dancing was continued until the small hours. The ice cream festival in the city park near the opera house was a grand success both socially and financially. Exact figures of the proceeds not yet learned. The convention adjourned to-day after selecting El Paso as the place for their next annual meeting. The gallant fire boys express themselves well pleased with the hospitality received at the hands of Tempe people and wish this city a continual and permanent boom.

RECEIVER APPOINTED.

Special Dispatch to the Examiner.
FORT WORTH, May 13.—The case of Jim F. Camp et al vs. C. E. Odorn et al, on an application for an order restricting defendants or any person from disposing of cattle seized upon under execution by the sheriff of Wheeler county and for the appointment of a receiver to take charge of said cattle, under certain exequities, was argued yesterday and to-day in the district court. At the conclusion of the argument Judge Beckham granted the restraining order and Mr. Walter T. Maddox was appointed receiver to take charge of the cattle in controversy and hold them subject to the order of this court. His bond to the order of this court. His bond was fixed at \$28,000 which he gave.

FOR THE UNION.

Hon. Jeff Davis and Miss Winnie Davis at Meridian.

Tendered a Public Reception, and vast crowds gather to honor the Ex-Chieftain.

Mr. Davis receives a handsome floral tribute from the ladies.

NEW ORLEANS, May 13.—A Meridian, Miss, special says: At 11 o'clock yesterday morning a public reception was given to Mr. Jefferson Davis at the residence of Col. J. H. McIntosh, where he is staying. For two hours a perfect stream of people passed through the parlors and shook hands with the ex-chieftain and his daughter.

Mr. Davis was in his best humor and had a pleasant word for each one that shook his hand. At 5 o'clock last evening a banquet and reception was given in the court house grounds. Mr. Davis made a short address in which he thanked the people of Meridian for their most cordial reception. At this point the members of the press association attended the platform in a body and presented their respects to him. At the banquet there were three hundred guests and seated at the table were the most distinguished men of the state. A floral wreath was brought in and E. H. Dial presented it to Mr. Davis in the name of the women of Meridian. Mr. Davis

spoke as follows: "God has graced the south with beautiful flowers and lovely women. The most blessed women are those of our southern land. With such feeling expressions the beautiful dowers were arranged so artistically by loving hands are more beautiful than any thing that has been given to me."

The second toast was to "Jefferson Davis, soldier, statesman and the champion of the southern rights." It was responded to by Hon. Thomas H. Woods. When Mr. Davis rose to reply he was greeted with long continued applause.

MR. O'BRIEN'S RESPONSE.

He began by apologizing for the short address he would make them, and said that he was quite fatigued from the day's exercise, continuing he said:

"I am unable to treat this theme as it should be without premeditation. What was the army and the navy of the south? It was the patriotism of persons who bared their breasts to bullets in defending constitutional right. With great navies and armies against us we formed regiments and battalions. At their head we placed Lee as their commander. All remember the scenes when the wife, as she threw her arms around her husband and her sons in loving embrace, gathering around those that were to go, and the widowed mother as she let tear drops fall on the face of the devoted son she would never see again and girded his sword to his waist and told him to go forth as his father would have done. Those were the kind of men we had. With inferior numbers of men we marched onward, fighting for our rights and battle after battle was fought and won, but northern historians never conceded that and indulged in triumphs of mind over the matter. But now those scenes and incidents have passed and they only live in the minds and in history. United you are now, and if the union is ever to be broken, let the other side break it. The army of the south will sing forever around camp fires and will still shine to our children's children. The truths we fought for shall not encourage you to ever fight again, but keep your word in good or evil. God bless you all."

DESTRUCTIVE FOREST FIRES.

CHICAGO, May 13.—A special from Marquette, Mich., says: Forest fires are raging in the vicinity of Negau near. Losses to the owners of pine lands will be heavy. Some mining locations are threatened with destruction near Tal Lake and Carp River. The fires are raging along the tracks of the Chicago and Northwestern, Duluth and South Shore and Milwaukee and Northern railroads. Forest City, a mining village, is threatened with destruction. The fires are spreading in every direction. A

truth digest says: Investigation of Lake Superior is impeded by the smoke of the Michigan and Wisconsin fires. As firemen and other men of the fire departments have been called out to fight the flames, and the situation is very critical.

ADMITTED TO HOTEL AT EL PASO.

EL PASO, May 13.—The State Firemen's Association convened today's session to electing officers for the next annual convention and complimentary resolutions and speeches.

W. Austin of Denton was elected president; P. S. Townsend of Temple first vice-president, Stewart Harrison of Fort Worth recording secretary, E. S. Connor of Paris assistant recording secretary, J. J. Murphy of Palestine corresponding secretary, and L. A. Gilman of Brenham treasurer. Half a dozen pieces were urged for the next convention but El Paso was finally chosen unanimously. There was a banquet at the new opera house tonight the convention having adjourned. Most of the delegates will leave tonight.

These are Wood-gatherers.

ST. LOUIS, May 13.—The National Wood-growers and Sheep Shearers association reassembled at the Cotton Exchange this morning and after listening to speeches and passing a resolution of thanks to the committee of organization sent to the city of St. Louis, the association recommended the appointment of a committee of five by the president of the association whose duty it shall be to watch all state and national legislation and to formulate a measure for the order of trade and to oppose all measures that tend to injure the production of wood and the manufacture of wooden goods. The convention then adjourned.

BIG STRIKE ONCE AGAIN.

CALIFORNIA, May 13.—Five hundred bricklayers and almost as many carpenters, hod carriers and other workers employed on buildings were reported idle this morning, with fresh accessions hourly. To-morrow the Brick Layer's union will go through the formality of ordering a strike and will call out the 1,500 men at work at present. Architects and real estate men have called meeting at which committees will be appointed to confer and co-operate with the committee to be appointed by the builders to-morrow morning for the purpose of endorsing any action taken by the members of the Builders and Trade exchange.

Death was Instantaneous.

TEXAS CITY, Ark., May 13.—Brakeman Teeter was cut in halves in the yard of the Texas and Pacific railway at noon to day, by a freight train running over his body. The train was backing up when he jumped from the hind end to turn a switch and fell across the track. Before he could regain his feet the train was upon him and before it could be stopped several cars had passed over his body. Death was instantaneous.

Trouble in the Mountains.

ST. LOUIS, May 13.—A special dispatch from Hot Springs, Ark., says: News has just reached here that a desperate fight took place yesterday among the silver miners in the mountains about sixteen miles from this city, in which a noted miner and proprietor, J. A. Wilson, was killed. It is supposed the trouble grew out of disputes over some mining claims which Wilson was working. Officers have gone to the seat of war.

Two Candidates on Trial.

LOUISVILLE, Ky., May 13.—The negro, Albert Turner, one of the murderers of Miss Jennie Bowman, has been indicted by the grand jury and tried under his confession of guilt and sentenced to be hanged Friday, July 1. William Patterson, jointly indicted with Turner, will have his trial next Wednesday.

Perhaps a Wagon.

CHARLESTON, May 13.—There was a slight shock of earthquake at Somerville and a slight rumbling at Charleston last night. The vibration was not greater than would be caused by a loaded wagon passing along the street.

Sale to Port.

SAN FRANCISCO, May 13.—A dispatch to the Merchants Exchange from the Port of Townsend, Wash., states that all the crew of the steamer King, burned and abandoned off Oregon coast, Sunday last, have arrived at that port.

The goddess of plenty and the smiling daughter of peace are as naught those abased with the demon of inhumanity. Its deadly foe is the sovereign remedy known as Morris Cascading.

Sale Money.

Buy your cultivators, wagons and mowing machines at the old market house at cost.

CHAS. FORBES.

Deane photographer, South Fifth

recommended for Illinois, especially for me. I was certain it was not good, but I have many of my friend's speak of it, and they were possessed of the virtues claimed for it. A. H. Hartmann, conductor on McLean & W. R. R. stamp in front of wrapper.
